CONCEPT

Galaxie® 45 TH LIFT-TO-SLIDE FRAME

Especially suited to contemporary housing, be it newbuild or retrofit, the Galaxie® 45TH High Performance lift-to-slide frame combines the best of technique and aesthetics, with refined lines.

Extensive choice of designs and ease of implementation mean you can offer a consistent solution to high-end construction and renovation projects.

Its design ensures maximum thermal and acoustic characteristics, in line with current standards.

The slimline aluminium sections provide 80% unobstructed glazed area and can accommodate windows of up to 7m² per leaf. The wide range adapting to all types of installation ensures coverage of even large-scale custom projects.

Lastly, the great variety of finishes (colour, accessories, internal section design) lets you compose original, personalized projects.

Compliant with
French building
regulation DTU36.5

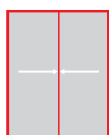

Compliant with
French RT2012
thermal regulations
and "BBC" low energy
consumption label

Operating force class 1

PLUS FEATURES

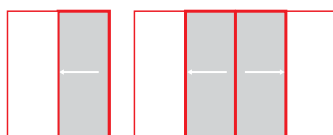

- High-inertia sections allowing large sizes (up to 3m high and 7m² per sliding panel)
- Panels up to 300kg
- 1 to 4 point handle-lift locking system guaranteeing comfort, security, and flexibility
- Fixed frames compatible with 70TH and 32TH ranges
- Reveal liners, weather bars, and architraves compatible with 70TH and 32TH ranges
- Punching tools are available for executing the metalwork across all the range

45TH Galaxie®

HIGH PERFORMANCE >

Product plus features

- Innovative thermal shield on opening frame
- Polyamide centre strip for thermal uniformity
- Anti-warp strip (bimetal effect)
- Compression seals to enhance weatherproofing
- 8-wheel trolleys for smoother sliding
- Accessibility sill
- Concealed drainage
- 1 to 4 point locking (mushroom catch)
- Operating force class 1
- Identical internal and external snap-in grooves
- A range of reveal liner sizes to suit all insulation thicknesses

DRIVE 100% INTEGRATED

This is the first fully integrated aluminium joinery system.

With its easy implementation, it enables unbelievably simple and secure opening and closing of sliding panels.

Product plus features

- Weight of aluminium equivalent to a classic Galaxie® 45TH lifter
- Simplified installation
- Control by knob, remote control or mobile device and connectible to a home automation box
- Manual operation possible
- Safety limit switch
- Noise level ≤ 70 dB

SOLUTIONS

▼ CORNER

Product plus features

- Full range of integration sections
- A specific solution for corners
- Slimline metal masses

▼ SINGLE TRACK

Product plus features

- Choice of designs (one or two in-line panels)
- Opening frames identical in single and dual track versions
- Specific design of in-line joins
- Stiffener design identical for overlapping and two in-line panels

POCKET DOOR ►

Product plus features

- Choice of design: 1 or 2 panels in-line and at corner
- Pocket designed for 180mm insulation

PERFORMANCE RATINGS

Configuration		AIR/WIND/WATER		
Sliding patio door	Two sliding panels	A4	E4B	VC2
Sliding corner patio door	Two sliding panels + two fixed	A4	E7B	VB2
Sliding patio door	One sliding panel + one fixed	A4	E6A	VC3
Sliding patio door	Two sliding panels + two fixed	A4	E6A	VC3
Sliding pocket patio doors	Single sliding panel	A4	E9A	VC3
SUNSHINE RATE				
Operating force class 1 up to 80°C
